

EFY MAGAZINE GOING DIGITAL

A very good initiative taken by EFY. In fact, I was about to suggest to EFY for the digital version. Actually, I was not sure whether I should receive the print version. By going digital, you have stopped the spread of Covid-19 and saved the environment. Moreover, you are also saving lots more including paper, printing, distribution, and manpower. I request you to pass this digital version to all subscribers and extend their subscription period. Hope you will consider it.

Rajendra Totagi

EFY. We appreciate the kind comments and suggestion. There are various options before us at present. We are monitoring the situation on daily basis and will take appropriate action as soon as possible.

E-ZINE EDITION OF EFY

I am a regular reader and subscriber to EFY for more than three decades. During the current compelling scenario, I appreciate the timely release of April issue through digital including the latest e-zine editions of Open Source For You and Electronics Bazaar.

I have gone through the digital EFY and find it convenient except in the zoom icon; the scroll sidebar is not able to move the page up/down and we can see only 40 per cent of top pages. If the side scroll bar is operated, it shifts the page. Being a subscriber, I will appreciate receiving the print version once printing resumes after lockdown.

Harbans Wadhwa

EFY. Thanks for sharing your feedback and appreciating our initiative to go ahead with the release of April issues of our publications in digital form.

We also thank you for sharing your

From <https://electronicsforu.com>

Electronics Projects

I am interested in the complete kit of 'Fingerprint Door Unlock System Using Arduino' DIY project available on your website at <https://www.electronicsforu.com/electronics-projects/hardware-diy/arduino-fingerprint-door-unlock-system>.

Please share contact details for the same.

Saroj Mahanta

EFY. The complete kit is available at our associates Kits'N'Spares. Please contact them on info@kitsnspares.com

In the 'Simple FM Receiver' DIY article available on your website at <https://www.electronicsforu.com/electronics-projects/simple-fm-receiver>, can I use ECC85 vacuum tube in place of transistors? How do you tune and control the circuit?

Gavryzniak Sam

EFY. The circuit was designed and tested with transistors only because tubes are not easily available in the market. Tuning is done using trimmer (VC) and volume control is done using 22-kilo-ohm potentiometer as given in the circuit.

feedback about the challenges faced in our current e-zine system. Our IT team is looking into these issues. We are now also providing a link to download PDF of the magazines—to provide more flexibility to the readers.

We will surely resume the print edition once the lockdown is withdrawn, and printing presses and postal systems resume normalcy.

EFY PUBLICATION DURING Covid-19

It is understood that due to the outbreak of Covid-19 the country is under lockdown. Regarding the publication of the magazine in e-zine version, I feel it

is not user-friendly. I request you to provide or find any alternate ways of downloading the full magazine as PDF or in any user-friendly format. Hope you will consider my request and do the needful.

KVKS Satish Kumar

EFY. Thanks for your feedback! We really appreciate your views and will keep looking at what best can be done under the circumstances.

However, as you may be aware, e-zine is besides the printed edition all subscribers to the magazine would be getting as soon as possible. We are also sending weekly newsletters to subscribers to keep them informed, even before the digital magazine reaches them.

While printed magazines have lots of inherent advantages, these are slower to reach the readers. We are therefore looking at some digital means to keep our readers informed without losing time.

Please do take out time to keep sending your views in the future as well. We love to hear from our readers.
