

Wi-Fi routers

With voice control support

Netgear has launched two models of Wi-Fi router systems in India amidst the coronavirus lockdown. Called Orbi Mesh Wi-Fi System (RBK12) AC1200 and Orbi Mesh Wi-Fi System (RBK13) AC1200, both systems come in a cube-like base router that has a diamond-shaped pattern on top. The RBK12 connects to a single satellite, while the RBK13 connects to two satellites. Netgear also has its app Orbi through which users can remotely control their mesh system.

Both the routers have the ability to deliver up to 1.2Gbps speed. These also have two gigabit Ethernet ports—one for wide area network (WAN) and one for local area network (LAN) connectivity. You can also create a guest Wi-Fi network to provide Internet access to your guests, without sharing your personal network credentials.

The router also has two internal antennas and supports band-steering to switch automatically between 2.4GHz and 5GHz. Further, there is voice control support via Amazon Alexa and Google Assistant.

Fitness tracker

With advanced sleep tools

Fitbit has launched Fitbit Charge 4 fitness tracker in India. Due to coronavirus lockdown and to help people stay active at home, Fitbit is offering forty new pieces of Premium content free in the Fitbit app. It offers 90-day free trial of this paid subscription to new Fitbit Premium members. The subscription includes personalised health insights, guidance, advanced sleep tools, customised programs, and over two hundred workouts.

The fitness tracker provides up to seven days of battery life, or up to five hours with continuous GPS use. It's Fitbit Active Zone Minutes is a personalised standard based on the user's resting heart rate and age. It tracks any workout that gets the heart pumping and measures the time spent in each heart rate zone toward a weekly goal of 150 minutes.

The tracker also includes sleep features. It has a Sleep Score feature which provides deeper insights into one's sleep patterns. The tracker also has a relative SpO2 sensor that powers Fitbit's Estimated Oxygen Variation Graph in the Fitbit app. It shows an estimate of the oxygen level variability in the bloodstream.

Smartphone

With 16.6cm HD+ Infinity-O display

Samsung has launched Galaxy A21 smartphone in a single variant of 3GB RAM and 32GB internal storage. The storage can be extended up to 512GB through microSD card slot. It comes with a 16.6cm (6.5-inch) HD+ Infinity-O display with 720p+ resolution.

The smartphone features a quad-camera setup that includes a 16MP primary sensor, an 8MP sensor with an ultra-wide-angle lens, a 2MP macro camera and a 2MP depth sensor. The phone comes with a selfie shooter placed in the hole-punch located in top left corner of the screen at front. It is powered by a 4,000mAh battery with 15W fast charging support. It runs on Android 10 and has a fingerprint scanner on the rear panel. In addition, it supports dual-SIM, Wi-Fi, Bluetooth 5.0, a 3.5mm headphone jack, and A-GPS with GLONASS.
