

Industry 4.0: Everyone Talks About It. But Is Anyone Investing?

Several reasons, including coronavirus, geopolitical conditions, and looking beyond one country for manufacturing needs, have once again sparked the need for implementing IIoT on a bigger scale. But, is anyone in electronics manufacturing investing in it?

Mukul Yudhveer Singh

The outbreak of Covid-19 has increased the need for adoption of IIoT/Industry 4.0 solutions. A lot of companies have started looking at automating manufacturing processes to reduce difficulties arising due to human errors.

In numbers, the Industrial Internet of Things (IIoT) market in India was valued at 7.43 million dollars in 2018, as per a report by Maximize Market Research. The report further states that the global IIoT market is expected to grow from 77.3 billion dollars
