

Calendar of Forthcoming Electronics Fairs/Exhibitions/Seminars/Events

Event, Date and Venue	Topics	Contact address for details
OSI Days October 8-9, 2020 Nimhans Convention Centre, Bengaluru	Mega technology show with multiple events including expositions, conference and seminars	EFY Enterprises Pvt Ltd Website: www.opensourceindia.in
Engineering Design Show October 14-15, 2020 The Ricoh Arena, Coventry	UK's only event entirely dedicated to engineering, electronics and embedded design	Engineering Design Show Website: www.engineeringdesignshows.co.uk
3rd Automotive World October 21-23, 2020 Portmesse Nagoya, Japan	Exhibition and conference for advanced automotive technologies including electronics, smart factory and robotics	Reed Exhibitions Japan Ltd Website: www.automotiveworld-nagoya.jp
Light + LED Expo India 2020 December 3-5, 2020 Pragati Maidan, New Delhi	Will have Future Zone for innovative products, Solar Zone, and Launch Zone for new products	Messe Frankfurt Trade Fairs India Private Limited Website: www.in.messefrankfurt.com Email: deepak.bohara@india.messefrankfurt.com
Renewable Energy India 2020 December 10-12, 2020 India Expo Centre, Greater Noida	Technology leaders, policy-makers, influencers and decision-makers from around the world come together to discuss current challenges and technological advancements	Renewable Energy India 2020 Website: www.renewableenergyindiaexpo.com
CES 2021 January 6-9, 2021 Las Vegas, Nevada	Global consumer electronics show	Consumer Technology Association Website: www.ces.tech
NEPCON JAPAN January 20-22, 2021 Tokyo International Exhibition Center, Tokyo	Asia's leading electronics tech show about R&D and manufacturing, including packaging, with seven concurrent specialised shows	Reed Exhibitions Japan Ltd Website: www.nepconjapan.jp/en
India Electronics Week February 3-5, 2021 Karnataka Trade Promotion Organisation, Bengaluru	Mega electronics and technology show with multiple co-located events including expositions, conference and seminars	EFY Enterprises Pvt Ltd Website: www.indiaelectronicsweek.com
Smart Nation Expo & Forum March 23-25, 2021 MITEC, Kuala Lumpur	The biggest international exhibition on smart cities, 5G services, smart technologies, applications and solutions	Smart Nation Website: www.smartnationexpo.org/ve

Since this information is subject to change, especially due to coronavirus breakout, all those interested are advised to ascertain the details from the organisers before making any commitment.

decrease of 0.9 per cent compared to the first quarter of 2020.

Worldwide sales of semiconductors were 34.5 billion dollars in June 2020, an increase of 5.1 per cent from June 2019. Sales of semiconductors were 35.0 billion dollars in May 2020, an increase of 5.8 per cent from May 2019 (33.0 billion dollars), and 1.5 per cent more than April 2020 (34.4 billion dollars).

SIA, in May 2020, had mentioned that the global semiconductor market in May remained largely resistant to the widespread economic disruptions caused by the Covid-19 pandemic.

ISRO to spur applied research and innovation in Indian MSMEs and startups

Atal Innovation Mission (AIM), NITI Aayog, has launched one of its most

awaited programmes, the Aatmanirbhar Bharat ARISE-Atal New India Challenges, to spur applied research and innovation in Indian MSMEs and startups.

"MSMEs are the growth engine of the country, and there are a lot of expectations from them. I am sure this initiative will help identify and promote innovations necessary for boosting this sector. Science should help solve socio-economic problems, and scientific research should be extended from the labs to the land," says Nitin Gadkari, Minister of Micro, Small and Medium Enterprises.

The Aatmanirbhar Bharat ARISE-ANIC programme will support deserving applied research-based innovations by providing funding support of up to five million rupees for speedy development of the proposed technol-

ogy solution and/or product. ISRO will adopt a hundred Atal Tinkering Labs from Atal Innovation Mission.

The programme will be driven by the Indian Space Research Organisation (ISRO), four ministries—Ministry of Defence; Ministry of Food Processing Industries; Ministry of Health and Family Welfare; and Ministry of Housing and Urban Affairs—and associated industries to facilitate innovative solutions to the problems.

India to reimpose five per cent duty on open cells for TVs

Consumer Electronics and Appliances Manufacturers Association (CEAMA) has pointed out that the government of India is going to reimpose five per cent customs duty on open-cell panels used in televisions starting next month onward.

However, the price hike might not be greater than 250 rupees per TV set, depending on the size of the TV. On average, open-cell panels for an 81.2cm (32-inch) LCD TV is imported at a price of 2,700 rupees, while the cost is about 4,000 rupees to 4,500 rupees for a 106.6cm (42-inch) TV set.

As per a report by TechSci, India's television market is projected to surpass thirteen billion dollars by 2023. Growth in the market is led by rising demand from an increasing number of independent households as well as commercial and hospital-ity sectors.

India emerges as a large-scale electronics manufacturing centre

It has been reported and observed that tech giants like Apple, Samsung, and all those who have facilities in China are shifting to other countries. It has recently come to notice that Samsung is also going to shut down its last China-based TV manufacturing by this November. Most of the tech giants are moving to India and some other Asian countries.

With regard to this, Ravi Shankar Prasad, Union Minister of India, said, "India is emerging as a big manufacturing centre, and the global manufacture ecosystem is realising that they must have other places apart from
